

Olewin
Academy

AN IIT Kharagpur Alumnus Platform

Research Institute from IIT Kharagpur Alumnus

PhD Research Excellence Program

Transforming PhD Scholars into Global Researchers

**From Research Registration to Doctoral
Graduation – One Platform, Complete Support.**

Advanced Research-Oriented Academic and Technology

**Global PhD Research Guidance | Advanced Science &
Technology Research Support
Led by IIT Kharagpur alumni and internationally trained
researchers**

Limited Intake Only

About Institute

Olewin Academy is an advanced research-oriented academic and technology institute providing end-to-end PhD research guidance across Engineering, Science, Technology, Medical, Energy, and Management disciplines.

Led by IIT Kharagpur alumni and Research Director internationally trained researchers :-

• Research Integrity Commitment

- Advanced patented technologies
- Quantum & AI research expertise
- Space & satellite research
- International journal standards
- Research integrity & originality

• All research guidance follows:

- Original research design
- Plagiarism control (<10–15%)
- Ethical publication practices
- International academic standards
- Copyright-protected frameworks

OUR VISION & UNIQUE POSITIONING

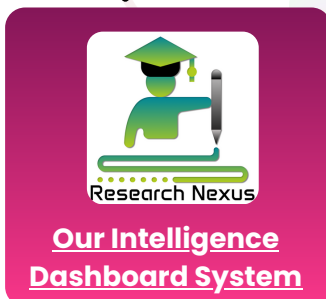

Most consultancies only provide

- ✗ Thesis writing
- ✗ Paper formatting
- ✗ Basic publication
- ✗ Normal Literature Norms
- ✗ Only Consultant Services

Our Research Institute Provides

- ✓ Complete PhD Research System
- ✓ Advanced technology integration
- ✓ Patent & copyright driven research (**IP Protect**)
- ✓ Q1–Q4 journal strategy planning
- ✓ Scholar progress intelligence dashboard
- ✓ Long-term research mentorship
- ✓ Multi-disciplinary expert ecosystem
- ✓ Post Doctoral & Research Opportunities
- ✓ Following the Research Norms across Thesis
- ✓ Complete Thesis writing and Review
- ✓ PPT for discussion & Viva support
- ✓ Scholars dashboard for tracking progress
- ✓ Opportunity to work in Technology company as a Researcher (**Selection based on Interview**)
- ✓ Limited Intake for Each Research system
- ✓ Real time Company R&D and Deep Tech Innovation based

Access to Our Platform

COMPLETE PhD SERVICES We Offer:

1. PhD Registration & Orientation Support

- University selection guidance
- Research domain identification
- Supervisor coordination
- Coursework planning

3. Research Proposal Development

- Problem statement
- Research gap matrix
- Objectives & hypotheses
- Methodology design
- Timeline for 3–5 years

5. Literature Review Excellence

- Systematic literature review
- Research gap identification
- Critical analysis frameworks
- Bibliometric analysis

Journal Support Includes:

- Journal selection mapping
- Paper structuring
- Results interpretation
- Revision handling
- Response to reviewers
- DOI tracking

Patent & Copyright Support

- Patent idea screening
- Prior art analysis
- Patent drafting guidance
- Filing strategy support
- Copyright ownership documentation

2. Topic & Title Selection. (Patent-Oriented)

- Unique topic formulation
- Novel problem definition
- Patent feasibility analysis
- Copyright ownership mapping
- Industry relevance validation

4. Coursework Academic Support

- Subject understanding sessions
- Assignment & presentation guidance
- Advanced technology exposure
- Research methodology training

Algorithm, Model & Framework Design

- AI / ML models
- Quantum algorithms
- Network architectures
- Satellite communication systems
- Energy optimization frameworks
- Medical imaging models

Thesis Writing & Review

- Chapter-wise structure
- Technical consistency
- Formatting as per university norms
- Plagiarism verification
- Supervisor alignment

Viva Preparation

- PPT design
- Mock viva sessions
- Question-answer training
- Confidence building

PhD Research for 3–5 Years

Q1, Q2, Q3, Q4 Journals

Rank	Meaning	Impact	Acceptance Rate	Expected Research Quality
Q1	Top 25% of journals	Very High	5–15%	Novel discoveries, new algorithms, new frameworks
Q2	Top 50%	High	15–30%	Strong experiments, improved models
Q3	Top 75%	Moderate	30–50%	Applied work, case studies
Q4	Bottom 25%	Basic	50–70%	Simple improvements, basic analysis

What you should deliver for each:

Q1 Level → Novel Concept + New Algorithm + Dataset + Implementation + Strong Mathematical/Experimental Proof

Q2 Level → Strong novel application + modified algorithm + multi-domain experiments

Q3 Level → Application-oriented work (industry case studies)

Q4 Level → Basic analytics, enhancements, literature-based work

A PhD topic must have:

- Long-term depth
- Enough complexity to generate 4–8 research papers.
- Novel research problem
- Should not exist already in public domain (avoid plagiarism).
- Multi-component structure
- Algorithm + Framework + Dataset + Application + Validation.
- Industry relevance - domain specific
- Helps the student get post-PhD opportunities.

Topics and thesis that are:

- Written from scratch
- Include your original algorithms / models
- Use your custom datasets
- Include custom diagrams
- Include original formulations / equations / frameworks
- This guarantees:
- Turnitin similarity < 10–15% Plagiarism or Less
- Zero AI-detected content issues
- Unique contribution per student
- Publishing a Paperback Book through the

Advanced research-oriented topics mapped to Q1/Q2/Q3/Q4 expectations

- PhD Student (Full Package)
- Phase 1: Topic Selection
- Phase 2: Research Proposal
- Phase 3: Paper Publications (Minimum 4)
- Phase 4: Dataset / Model Creation
- Research gap explanation, Q&A training
- Phase 5: Final Thesis
- Phase 6: Viva Support

Olewin
Academy

Research Institute & DeepTech Innovation

Official Agreement / MoU/ Undertaken form

MEMORANDUM OF UNDERSTANDING (MoU)

Between

Olewin Academy - An Ed-Tech Platform from Olewin Pvt Ltd
(Registered Research & Training Organization)

And

_____ University

(Department / School: _____)

Pricing Model (Industry Standard)

Below is the international consulting price range:
Full PhD Guidance (Per Student – 3 to 5 years)

1. Purpose of the MoU
2. Roles & Responsibilities
3. Duration of the Agreement
4. Financial Terms
 - Fees are based on the model recommended in your previous message (₹4–8 lakhs per student).
5. Confidentiality
6. Signature with Acknowledge letter from Each student/scholars and Guide

Component	Price (INR)
Topic + Proposal	₹50,000 – ₹75,000
4 Research Papers	₹1.5L – ₹3L
Thesis Writing	₹1.5L – ₹3L
Code + Dataset	₹1L – ₹2L
Viva Support	₹30,000 – ₹50,000

Course fee may vary based on topic and Selection of services

Official Note: Research Copyright, ISBN, and Publication Rights

Note on Intellectual Property, Copyright & Publication Standards

All research topics, methodologies, algorithms, frameworks, datasets, thesis documents, and related academic materials provided by Olewin Academy are fully protected under Copyright Act, 1957 (Government of India) and international copyright conventions. All research content is fully owned by **Bandaru Mahesh**, protected under intellectual rights, with 6–7 copyrighted research publications and books registered under ISBN: 978-93-XXXX-XXXX

DISCIPLINES WE SUPPORT

Engineering & Technology Science & Research

- Computer Science
- Information Technology
- Artificial Intelligence
- Data Science
- Cyber Security
- Electrical Engineering
- Electronics & Communication
- Mechanical Engineering
- Civil Engineering
- Automobile Engineering

Advanced Domains

- Quantum Computing
- Satellite Communication
- Space Technology
- Networking & Communication Systems
- Energy Systems
- Renewable Energy
- IoT & Robotics
- Automation
- Blockchain
- Agritech

- Mathematics
- Physics
- Chemistry
- Biology
- Biotechnology
- Geography
- Geology
- Geophysics
- Environmental Science

Management & Medical

- MBA / BBA Research
- Healthcare Analytics
- Biomedical Research
- Medical Imaging

OUR DIGITAL PhD PLATFORM

- Every scholar gets access to:
- Personal PhD dashboard
- Topic & title tracker
- Coursework tracker
- Paper publication tracker
- Patent tracker
- Thesis chapter tracker
- Viva preparation tracker
- Progress analytics

For Supervisors

- Scholar monitoring dashboard
- Read-only academic progress access
- Research transparency

Our Promise

- ✓ Research originality
- ✓ Academic integrity
- ✓ Global standard mentoring
- ✓ Long-term research excellence
- ✓ Career-oriented PhD development
